Art Unit: 3712

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 & 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kolpacki 3,258,000.

Kolpacki shows a device that would be effective to reduce vibration and shock in an archery bow, including a base 10 of flexible material, a body 12 integrated with the base, and a peripheral mass positioned on the body opposite the base, the peripheral mass including flanges 15 extending laterally across the body.

Claims 13-17 are allowed.

Claims 2-9, 11, & 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art does not disclose the body having a non-uniform cross section between the base and peripheral mass.

Art Unit: 3712

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
